

## PRO PRIME PEDESTALS

The **LOWEST PEDESTAL HEIGHT** in the industry!

The **ONLY** pedestal that can go from **HEIGHT 0.6" - 1.2"**

**Built-in locking ring – integrated locking**

The new PRO support from the Pedestal Prime® line is designed to cover heights from 15 to 30 mm. It compensates for the 2.5% slope and has all the advantages of the Pedestal Prime® support to guarantee maximum quality even at smaller heights.

The PRO support is available with: a self-levelling two-component head with tabs for laying slabs, and the new UNIVERSAL self-levelling two-component PP + rubber head for aluminium and wood joists.
